\$100,000 SUIT DISMISSED

Controversy Over Land in City Creek Canyon Will Not Come to Trial.

A suit involving land valued at \$100,000 John C. Cutier, who delivered a short adform miles from the mouth of City Creek canyon was dismissed by Judge Lewis of the district court yesterday, on the most important material consideration is health. It is more than money, or the constants or stocks or honds or any other tion of the attorneys for F. J. Senior, the

The facts set forth by the papers in the case are of considerable interest. The defendants are H. E. Bassford and

fall.

It appears from Senior's complaint that on October 4, 1905, Bassford secured title from the state to the land in controversy. On March 28, 1906, he gave Senior a statement showing that the land was held in trust for F. J. Senior & Co., by him, but later he transferred it to J. F. Marshall, the present owner.

Senior claimed that under the trust agreement Bassford is liable to damages for the value of the land, which is

for the value of the land, which is placed at \$100,000.

loans amounting to approximate-

DON'T SUFFER

Read This Evidence and Begin Today to Cure Yourself With Dr. Williams' Pink Pills.

Sciatica is neuralgia of the sciatic nerve. Its origin is generally rheumatic and is the direct result of taking cold. For this reason the disease is commonly known as "sciatio rheumatism."

Absolute rest is the best aid to proper

medical treatment. Rest and Dr. Williams' Pink Pills will cure most cases. Mrs. Mary M. Etz, of No. 309 1-2 West Clinton street, Elmira, N. Y., suffered for nearly a year and during a great part of that time her symptoms were constantly increasing in severity, although she was under the care of a doctor and a nurse. "I had very weak heart action," she says, "and I believe that my kidneys became affected. There were terrible pains in my back and limbs and my feet and ankles were swollen. I had night sweats, and sometimes a cold numbness in my limbs.

"My trouble was sciatic rheamatism complicated with grip and at times I could not raise my foot two inches from the floor. The rheumatism grew gradually worse as my system was weakened by the poison the grip had left in my body. About this time a friend of mine who lives in Cortland recommended Dr. Williams' Pink Pills. I tried them and was soon relieved. In all I took six boxes and was cured. One remarkable thing I noticed about the pills was that they began to give me strength almost as soon as I began the treatment. I shall be glad to have you publish this and I hope the pills will be a blessing to others as they were to me."

Sciatica is stubborn in resisting treatment and the patient frequently suffers for years. Dr. Williams' Pink Pills do not simply relieve pain but they cure diseases caused by depraved or vitiated blood. They actually make new blood and have therefore a direct and powerful curative effect on such diseases as rheumatism, anæmia, general debility, after-effects of the grip, neuralgia, par-tial paralysis, St. Vitus' dance and

tor ataxia. Dr. Williams' Pink Pills are sold by all druggists, or sent by mail, postpaid, on receipt of price, 50) cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y. range 1 west

STATE ASKED TO

Appropriation of \$5,000 From Legislature Recommended for Diphtheria Sufferers.

DR. RALEY SUGGESTS PLAN

HEALTH OFFICERS OF STATE MEET IN COUNCIL CHAMBER.

That the state legislature appropriate 5,000 for the purchase of diphtheria antioxin for all victims of that disease was he recommendation of Dr. F. H. Raley of Salt Lake at the convention of the health officers of the state which opened its session in the council chamber yesterday morning.

Dr. Raley presented a resolution covering the point, and it was unanimously adopted.

adopted.

According to his view of the situation, there are many cases of diphtheria where the parents of the patients cannot afford to purchase antitoxin, which is almost a sure cure for the disease. Dr. Raley said that a number of deaths each year could be attributed to this condition and he declared that the state should provide means to save these children from the fate imposed upon them by the poverty of their

osed upon them by the poverty of their The convention was in accord with his views and the resolution, was adopted.

Talk by Dr. Beatty.

The convention met at 10 o'clock yesteray morning and continued in session all ay. It was called to order by Dr. T. B. Beatty of the state board of health, who stated the purpose of the meeting, and said that the last legislature authorzed the convention by requiring all health officers to attend and providing that their expenses should be paid by the districts they reperesent. About 156 health officers from all parts of the tate were present and the convention will be continued today. In the course of his remarks Dr. Beatty

"To create a sentiment among the masses of the people backing up the unhealthy conditions and removing them is the duty of the convention and every nember thereof."
Dr. Beatty then introduced Governor

the most important inaterial consideration is health. It is more than money, or lands, or stocks, or bonds, or any other evidences of prosperity. It is the foundation of all these, and of happiness as well. "Hence, no community is justified in neglecting the health of the people on account of any economic consideration whatsoever. Any municipal improvement his wife, and the suit was brought last fall.

It appears from Senior's complaint that on October 4, 1905, Bassford secured title from the state to the land in controversy. sanitation is not properly secured, a woe-ful waste is sure to result. We pay a ful waste is sure to result. We pay a fearful price in the sickness and probable death of our children, for our short-sight-

Has Urged Health Laws.

"For three years I have been urging ommunities to look after the health of In his answer Bassford accuses Senior of fraud and misrepresentation. He says that up to October 4, 1906, he was intersted with Senior and L. H. Gray in the people; to secure water systems; to establish drainage; to keep clean; to destroy or disinfect their refuse; to enforce quarantine; to keep careful and scientific watch on conditions affecting health. I desire to see every city and town in Utah supplied with good water by means of an up-to-date water system; with good drainpany. It was agreed at the time that age, good sanitation, a good quarantine if the land should be sold the proceeds system, pure air, and all the other necessary conditions of health. And I feel that the expenditure required to secure in addition to his one-third the \$2,500 owed him by the company. At the time he signed the statement which acknowledges that the land is held in trust for the company, Bassford says that Senior tricked him. He asserts that Senior came into his office that day, claimed that he had a nurchaser for the land who was going.

"I was greatly pleased when the recent legislature passed a hill providing for a purchaser for the land who was going to Los Angeles that night, and asked that Bassford sign the statement so that he. Senior, could show the intended purchaser that he had an interest in the property. The sale was never made and since that time Senior has retained the measure received my hearty encordance with this law a goodly number of intelligent health officers are present, and when you ladies and gentlemen go have a which he have his suit home, I want you to carry this mes-sage to your various communities: Health is above everything else. The citizen owes it to the community to be healthy, as much as to be clean and moral. It is as much as to be clean and moral. It is a public duty. The only way to make that duty possible for the people is to get to-gether in solid union on measures to pro-mote the general and individual health."

Dr. Miner Chairman.

After the governor had spoken, Dr. D. Miner of Nephi was chosen chairman O. Miner of Nephi was chosen chairman at the suggestion of Dr. Beatty, and the roll of delegates was called.

Dr. W. H. Calderwood, county physician of Salt Lake county, then read a paper on "The Milk and Food Supply," in which he took up typhoid infection and showed how this disease fastens itself upon a community. He told of the recent discovery that the mmon fly is the most prolific conveyer the germs of typhoid infection and that is necessary that the best of sanitary

rder to prevent infection from this In the afternoon, Dr. Caldewrood's paer was discussed at length under irection of Dr. Beatty, and Dr. Raley ead his paper on diphtheria, its causes A general discussion followed fter the resolution asking the legislature o appropriate funds for the purchase of

Each health officer was instructed to see that the member of the next legislature from his district is in accord with ne views expressed in the resolution, and be to it that he would vote for the easure when it came up before the state The burden of the discussion during the

fternoon was born by Dr. Beatty and he time was devoted to typhoid and tu-Another meeting will be held in the same place this morning and the convention may last several days.
